Ft. Lauderdale, Florida

According to the popular 1960 beach movie, Fort Lauderdale is "where the boys are." The city's reputation as America's Spring Break capital, however, has been replaced with the more favorable image of a prime family tourist destination, attracting more than 10 million visitors annually. The most popular beach resort in Florida is even more rightly famed as the "Yachting Capital of the World," with more than 40,000 registered crafts calling its waters home. The city also prides itself on being the "Venice of America" with more than 300 miles of navigable waterways. Fort Lauderdale boasts world-class theaters, museums, sightseeing, and shopping.

The city sits 24 miles north of Miami and is named after a series of forts built by the United States during the second Seminole War. The forts took their name from Major William Lauderdale, who was the commander of the detachment of soldiers who built the first fort. Look hard and you might find remnants of three of them today. More people seem to be interested in taking a water tour aboard the "Carrie B."

Note: Upon disembarkation, please collect your bag, go through customs and handle your bag to your tour driver who will stow and lock it underneath your bus. Disembarkation tours end at the airports; therefore passengers who have post-cruise packages at local hotels must disembark at Fort Lauderdale International Airport. Passengers will then be responsible for their transportation to the hotel.

Off the Beaten Path

Everglades Airboat Ride & Eco-Adventure with Fort Lauderdale Airport Transfer (Disembarkation)

FLL-635 Approximately 2.25 hours / From \$59

Upon arrival, board your airboat for a 30 to 40 minute journey through this unique eco-system. With a flat bottom and large driving airplane propeller at the stern, the airboat is able to skim the surface of the shallow waters and traverse this fascinating "Sea of Grass" - a name the native Seminole Indians applied to the land because of the sawgrass that is a vital part of the Everglades' natural filtering system. Here you will come face to face with alligators, exotic birds and native fish while gliding over an endless river of grass.

Throughout the journey, your experienced guide will introduce you to the unique eco-system of the park as you pass sawgrass prairies, mangrove and cypress swamps, pinelands, and hardwood hammocks. As the Everglades are known for rich bird life, particularly large wading birds, be on the look out for the roseate spoonbill, wood stork, great blue heron and a variety of egrets. It is also the only place in the world where alligators and crocodiles exist side by side. Following your airboat ride, you will be able to explore the park on your own, including a fascinating reptile exhibit and show. The reptile show will provide you with an informative, interactive opportunity to become familiar with the features of the American alligator.

St. Kitts, St. Kitts & Nevis

Jagged volcanoes soaring above azure and turquoise seas, dense rainforests in myriad shades of green, rolling fields of sugarcane--welcome to St. Kitts. Along with its neighbor, Nevis, St. Kitts presents an exotic landscape more common to Polynesia than the Caribbean. The islands' terrain, rich soil, and climate made them ideal locations for raising sugarcane. In fact, St. Kitts and Nevis were once the crown jewels of the Caribbean. During the 17th and 18th centuries, Spain, France and England vied for control of the islands, with the English finally winning out in 1787. Today, British and French heritage is evident on both islands. Basseterre, the capital of St. Kitts, boasts fine, restored colonial buildings. Impressive Brimstone Hill Fortress, called the "Gibraltar of the West Indies," is one of the most impressive fortresses in the Caribbean.

Sightseeing & City Tours

World Heritage Site

Brimstone Hill, Romney Manor & Caribelle Batik **SKB-100 Approximately 3 hours / From \$49**

Discover the wonders of St. Kitts throughout this moderately active half-day excursion. Sit back and take in stunning views of Basseterre, the island's capital, through the window of your air-conditioned transport, then get out and explore historic sites on foot. Begin by traveling the scenic coastal road to Brimstone Hill Fortress National Park, a UNESCO World Heritage Site. Commanding an 800-foot-high plateau, this 300-year-old fortification offers sweeping views of forested mountains, cultivated fields, and idyllic islands.

Step inside the walls and surround yourself with reminders of the 18th century. The second-largest fortress of its type in the Western Hemisphere, Brimstone Hill was the scene of more battles between the British and French than any other single site in history. It conjures the ingenious British military engineers who designed the fort, the stalwart African slaves who built it and the intrepid soldiers who defended it during the Great Siege of 1782; a battle that was only fully resolved when the Treaty of Versailles was signed in 1783.

Say good-bye to Brimstone Hill and continue your adventure to Caribelle Batik Studios. Feast your eyes on the lush tropical gardens, including the 350-year-old saman tree whose massive limbs shade a half-acre of Romney Manor's landscaped grounds. Enter the studios and see for yourself how Caribelle's signature fabrics are made. During a demonstration, you'll learn how island artisans have adapted the ancient Indonesian method of batik to their own Caribbean designs. Afterwards, visit the shop and purchase a lovely batik garment as a memento of your trip.

The history of Romney Manor adds more local color. The great-great-great grandfather of Thomas Jefferson is credited with the founding of the estate but it is Earl Romney and his humanistic act that captures the imagination. It was here in 1834 that Romney freed all his slaves, despite the prevailing views.

Soak up your last views of this tranquil spot before re-boarding your transport back to the ship. The stunning coastal road passes emerald-green sugar fields and offers views of the extinct Mt. Liamuiga, an integral part of your overall experience.

Romney Manor, Caribelle Batik & Panoramic Drive **SKB-110 Approximately 2 hours / From \$39**

This narrated excursion features a scenic island drive that's ideal for guests who wish to take in St. Kitts verdant mountains, rolling hills and sugarcane fields with little or no walking. Board your air-conditioned transportation and drive through Basseterre, admiring the city's many restored colonial buildings and its lovely low-lying location with the Olivees Mountains to the north and the Conaree-Morne peaks to the east. This charming capital of the Federation of Saint Kitts and Nevis is one of the oldest towns in the Eastern Caribbean. Founded in 1627 by the French, it served as the capital of the French colony of St. Christophe, eventually growing into a vibrant merchant port.

As you drive through town, your driver will point out landmarks like Independence Square, St. George's Anglican Church, the Berkeley Memorial, and the Queen Victoria Statue Roundabout. Large international banks abound making Basseterre a thriving commercial center.

Your excursion will then go to Romney Manor to witness its splendid gardens which are not only rich in beauty, but have an awesome and fascinating history. Many years ago, these gardens were home of the Carib Indians and were later owned by Sam Jefferson, the great-great-grandfather of Thomas Jefferson, the third President of the United States. Artisans at the Caribelle Batik Factory provide live demonstrations of the complicated process of turning soft Sea Island cotton into a colorful batik.

Soon your tour will head into the surrounding hills for a fantastic overview of the city and photo stop at Timothy Hill Lookout. Travel through "sugar country" and learn about the history of the sugarcane industry and its importance to the island economy. Continue down the island's Southeast Peninsula for views of Frigate Bay, the beach-laden heart of the island's tourist industry. You may even get a look at St. Kitts' sister island, Nevis, in the distance before your return drive back to the ship.

Romney Manor, Caribelle Batik & Scenic Drive

SKB-120 Approximately 2.5 hours / From \$65

Board your air-conditioned transportation and drive through the capital of Basseterre, one of the oldest towns in the Eastern Caribbean. Learn of its rich history and witness the French and British influences revealed in the carefully preserved historic buildings. Your guide will provide interesting commentary on the passing sights and point out important landmarks like the Berkeley Memorial, Independence Square, St. George's Anglican Church and the impressive Catholic Cathedral.

Imagine what it must have been like back in the 1600s when the French first settled this lovely valley between the Olivees and Conaree-Morne mountains. The charming town that grew up along the southwestern shore of St. Kitts looks peaceful enough. Its history, however, has been anything but tranquil. Destroyed many times, either by colonial wars and riots or by fire, earthquake, flood or hurricane, it rose from the ashes time after time. Today it holds its own as an international commercial center and vibrant shipping and cruising port.

Your tour continues to Romney Manor, the one-time home of a distant relative of Thomas Jefferson. It now houses the Caribelle Batik Factory. Explore the lush grounds of this former sugar plantation and marvel at the leafy, one-half-acre-wide canopy of a 350-year-old satan tree. During your visit to the batik studio, your senses will delight in the beautifully colored fabrics for which Caribelle is justly famous. See how the colorful batik designs are made and take the opportunity to browse the charming gift shop. You just might find the perfect souvenir among the artfully dyed batik garments that are made here by island artisans.

Scenic Railway Ride & Circle Island Drive

SKB-170 Approximately 3 hours / From \$99

Step aboard the "Last Railway in the West Indies" for an unsurpassed opportunity to experience the scenery and culture of this unspoiled country. The "Island Series" railcars of the St. Kitts Scenic Railway are unlike any other railcars anywhere in the world.

They are double-decked, with an upper open-air observation platform that puts you high above the top of the sugar cane and island vegetation for unobstructed 360 degree viewing. The lower air-conditioned "parlor" features huge six-foot vaulted windows, the colorful artwork of local artists and charming rattan furnishings.

Complimentary drinks (rum punch, frozen daiquiris, soft drinks, fruit juices, and bottled water) are served throughout the trip while you enjoy colorful narration. Leaving Needsmust Station, the train is soon surrounded by fields of sugar cane. The railway skirts the volcanic slopes of Mt. Liamuiga, crosses numerous tall steel girder bridges, provides glimpses of black sand beaches and crumbling plantations, and offers up sweeping vistas of the nearby islands of Nevis, St. Barths, St. Maarten, Saba, and St. Eustatius.

Images of village life offer local color. As the train passes Mansion Village, cliffside piggeries and fields of pineapples come into view. At Saddlers Village you'll pass within inches of papaya, guava, and banana trees, while backyards flutter with billowing laundry. All along the route laborers and farmers stop in their work, and school children run out of classes to greet you with smiles and waves as the train goes by.

At La Valle Station, you'll disembark the train and transfer to sightseeing buses to complete your circle tour on the Island Main Road. The route passes under the silent guns of Brimstone Hill Fortress, and through a dozen small villages and towns that dot the Caribbean Sea side of St. Kitts before returning back to the city of Basseterre and the cruise ship port.

St. Lucia

Nestled below the Pitons, twin peaks rising over 2,600 feet above the azure waters of the Caribbean, St. Lucia is an oasis of tropical calm. The island's capital, Castries, is a town of charming, pastel-colored colonial buildings, home to some 60,000. Yet despite its peaceful setting, St. Lucia has a turbulent and colorful history. Fierce Carib warriors overran the peaceful Arawaks in the 9th century. The first European settler, Francois Le Clerc, was a French buccaneer. Le Clerc's countrymen followed in his wake, establishing the town of Soufriere in 1746. Sugar was the lure, sugar was king. Within four decades some 50 plantations flourished on the island. Thus St. Lucia became part of the Caribbean's 18th-century trade triangle of sugar, slavery, and rum. Today this beautiful island welcomes visitors drawn to its exotic tropical landscape, superb beaches, crystalline waters, and colorful marine life.

Barbados

Barbados is one of the few Caribbean islands solely colonized by one nation. It's no wonder Bajans describe their country as being "more English than England sheself," surnames like Worthing and Hastings abound. But look around and you know you're not in England: rich and fertile tropical fields meet a glistening, azure sea. The soft pastels of old chattel houses blend with the vibrant reds, oranges, and greens of roadside fruit stands. In short, Barbados exudes a charm all its own. Perhaps it is due to Bajan culture, that celebrated blend of English tradition and the African heritage brought to the island by slaves imported to work the sugar plantations. The potent brew which results flavors every aspect of island life, from music, dance and art, to religion, language and food.

Segway Off-Road Adventure & Beach Break

BGI-570 Approximately 4.25 hours / From \$99

A Segway off-road self-balancing Personal Transporter offers a fun and unique way to explore the beautiful beaches, dramatic coastline and incredible scenery of Barbados. In addition to spectacular landscapes this memorable four and a quarter hour off-road excursion also includes a stop at a picturesque beach for a swim and a bit of relaxation.

Before boarding your air-conditioned transportation, be sure to slather on the sunscreen and wear comfortable clothes and shoes (it's advised that you don't wear flip flops). Don't forget to bring along a swimsuit, a towel, change of clothes and a camera.

Then, sit back and relax as your transportation meanders along the west coast's scenic route with the azure waters of the Caribbean Sea just outside your window. Interrupted by a short restroom stop along the way, eventually, you'll reach the official Segway starting location and disembark.

But before you hop aboard your Segway, you'll meet an expert Segway guide who will take you step-by-step through a comprehensive and personalized lesson on the operational and safety aspects of riding your personal transporter. It's really quite easy - to go forward, simply lean forward with your hips over your toes. To stop or move backwards, just lean back with your hips slightly over your heels.

The handlebar acts like a joystick on a video game, all you have to do is turn it in the left or right direction. Then, after donning your helmet, knee and elbow pads, you're ready to roll.

Your one hour off-road adventure is the eco-friendliest way to soak up the exquisite sights of the island's northeastern beaches. With

the cool ocean breezes kissing your face you'll glide across velvety sand, under coconut trees and along the Caribbean's sparkling water. You'll occasionally make photo stops in breathtaking coastal areas so you can capture each memorable sight.

As you glide through this pristine area it may be hard to imagine that Barbados was once a haven for scoundrels such as pirates. During the 16th and 17th centuries, Barbados was the port of call for treasure ships bound for Spain, and it was often the first stop for European trade ships heading for the New World.

The area still boasts spectacular weathered cliffs, magnificent views and remote coastal spots but you can only reach them by an off-road Segway.

After a stop with a cooling beverage or celebratory rum punch, you'll ride to your last stop on a west coast beach. Here, you can slip into your suit and take a cooling plunge into the Caribbean's tranquil water or unwind on the beach.

Then, you'll reboard your transportation for the relaxing drive back to your ship.

Sunbury Plantation, Orchid World & Gun Hill Signal

BGI-100 Approximately 4.25 hours / From \$65

Begin your leisurely excursion to enjoy the best of Barbados by stepping aboard your air-conditioned transportation at the pier. You will depart Bridgetown and take a brief scenic drive through the breathtaking natural beauty of this exotic coral island. Travel to St. George parish and visit the historic Gun Hill Station. Built in 1818, this military outpost with magnificent views of the island once served as a lookout for approaching ships. Using semaphore flags and lanterns, soldiers based here could communicate with other signal stations on the island to warn of possible invasions. Beautifully restored and landscaped by the Barbados National Trust, the station now houses a fascinating collection of military memorabilia and features an imposing statue of a magnificent lion, carved from coral in 1868 by garrison captain Henry Wilkinson.

Venture to the heart of the Barbadian countryside with a stop at Orchid World, an exotically beautiful 6-acre tropical garden that is home to over 5,000 orchids. Situated amongst fields of softly swaying sugarcane, this glorious wonder of nature features a meandering path that takes you past gently flowing waterfalls, through coral grottos, along rock gardens and into cool, shady gullies. Marvel at the orchids that abound throughout, some of which grow in mid-air on freestanding palisades with their roots completely free of any soil! Enjoy the tranquility of four shaded orchid houses, a fernery, two courtyards and a gazebo with spectacular vistas of the surrounding landscape.

Step back into the past with a trip to the Sunbury Plantation House, located in tranquil St. Philip parish. Built in 1650 by Matthew Chapman, an Irish/English planter who was one of the island's first settlers, this beautifully restored house is a monument to plantation life of a bygone era. Stroll through the rooms (all of them are open for viewing!) and take in the amazing collection of antiques, memorabilia and domestic items that were part of everyday life hundreds of years ago. Peruse the root cellar (originally used for storing yams and other root vegetables) which now features the largest collection of antique carriages in the Caribbean.

Roam the extensively landscaped grounds for more fine authentic examples of old carts and machinery used in the last century to cultivate the land. For some interactive fun, the friendly staff will teach you how to make good old-fashioned Bajan rum punch as well as cod fish cakes, a delicious local delicacy. Naturally, you'll be invited to sample what you've created. Additionally, you'll enjoy complimentary beverages including rum or fruit punch, jerk chicken and plantains. The cemetery also contains the remains of the youngest Prime Minister of Barbados who passed away in October 2010. Mount Gay and Foursquare Rum Tour & Tasting

BGI-270 Approximately 3.75 hours / From \$45

Did you know that rum was invented in the 17th century right here in Barbados? Or that it's made from a sugar by-product such as molasses? Learn this and much more about rum's history during this fascinating three hour tour.

Your excursion begins when you board your air-conditioned transportation at the pier and embark on a brief guided drive through Bridgetown. Then, it's a short drive to the Mount Gay Rum Distillery.

When you arrive, you will be taken on a guided tour of the Visitors Center, which showcases the world's oldest rum brand.

Established in 1703 on this lush plantation, the company was an eyewitness to the arrival of the first distilleries to the island. But soon, it made its mark as one of the most renowned in the Caribbean.

At the Visitor's Center you will be shown a state-of-the-art multimedia presentation that will entertain you with the history of this amazing company. Then, you will be invited to tour the distillery to discover first-hand the process behind the manufacture of the world's oldest rum. Knowledgeable guides will show you how the rum is distilled, aged, blended and bottled using only the finest rich sugar cane, aromatic molasses and pristine coral filtered water native to the island.

After your tour, step into an authentic chattel house, which are moveable homes on blocks originally designed for plantation workers, where you can sample the tasty rum, shop for souvenirs, and purchase a favorite bottle to take home with you.

Your next destination is the Foursquare Rum Distillery. Although it's set on the site of a former sugar factory dating back to 1636, its distillation methods are definitely innovative. Green technology has been utilized in every step of the rum making process and the measurable results are outstanding, making it one of the most modern in the world.

As you drive onto the facility, you'll meander up through a field of sugarcane. Here, you'll find that almost ten acres have been transformed into a beautifully landscaped property complete with gardens, fully restored plantation outbuildings, a petting zoo, an amphitheater, small museums and, of course, a cutting edge rum distillery.

During your visit you'll learn about the company's heritage and its devotion to the 350-year-old Barbadian tradition of rum making. At the end of your tour, you will be escorted into a meeting room near the bottling plant and given the opportunity to taste the different kinds of rum they produce.

Following your visit, you'll reboard your transportation and return back to Bridgetown along a scenic route.

Then journey through the countryside to Farley Hill. Situated 850 feet above sea-level, this spot offers an excellent view of the verdant highlands of the Scotland District which covers the parish of St. Andrew and is named after Scotland's Patron Saint. Drive along the East Coast to the sleepy seaside village of Bathsheba where the waves, wind and time have conspired to sculpt giant mushroom shaped rock formations that jut majestically out of the pounding surf - the largest of which is the Bathsheba Rock. A stone's throw away is Andromeda Botanical Gardens in the parish of St. Joseph. Nestled on a cliff overlooking the coast, this lavish six acre garden features over 600 species of exotic plants as well as a grotto-like lily pond and one of the world's largest palms trees. Upon arrival you will be welcomed with a refreshing beverage and given an overview of the gardens and their history. Take time to relax in the quaint café where you can purchase island cuisine.

Continue on through lush hillsides of softly swaying sugarcane to Parks Farm, a bucolic working farm that raises the island's famed black belly sheep. Unique to Barbados, these sheep are believed to have been imported from Africa by early British settlers. Harrison's Cave & Scenic Drive

BGI-225 Approximately 3 hours / From \$69

As a start to your leisurely tour of one of the Caribbean's top attractions board your air-conditioned transport at the pier and head out of the bustling port city of Bridgetown for a guided drive. En route, look out for the historic Sharon Moravian Church. Dating back to 1799, this exquisite church remains one of the area's few 18th-century edifices unspoiled by modifications or alterations. Following a brief scenic drive, you'll arrive at the newly renovated Harrison's Cave. Said to be one of the natural wonders of the world, this magnificent, crystallized limestone cavern is named for Thomas Harrison, an early settler who owned much of the land in the area in the 1700s. Developed by the Barbadian government as a show cave, the shafts and tunnels were excavated to access remote chambers and accommodate trams before the caves were opened to the public in 1981.

Then descend 100 feet via a glass elevator to reach the Cave Interpretative Centre (CIC), where, in preparation of your journey into the depths, you'll be treated to pre-tour activities, including a nine minute video about the history of this marvel of nature. Board a new electric tram for a journey of pure wonder through this massive cave system that stretches over 2 miles. At select points you can disembark for photos and a closer look inside the various yawning chambers filled with beautifully lit stalactites, stalagmites and delicate flowstone formations, all created by pure flowing streams over millions of years. Marvel at the majestic 'Cathedral', the caves largest chamber, which measures an impressive 50 feet high.

Take in the awe-inspiring beauty of a thunderous 40-foot waterfall which cascades into an exquisite and mesmerizing blue-green lake. This free flowing water makes Harrison's Cave an active stream cave and contributes to the continuing growth of the stalagmites at a rate of less than the thickness of a piece of paper each year - fast in geological terms! At the end of your remarkable journey beneath the earth, you will board your transport for a scenic drive back to the harbor. It is an opportunity to sit back, relax and contemplate the fact that you can now officially consider yourself a speleologist (a person who explores caves)!

ANU-340 Approximately 6 hours / From \$119

Board your 4WD, open-air Land Rover near the pier and head out to discover the tropical beauty and historic highlights of Antigua. Your specially designed vehicle was built for off-road exploration and your driver will be able to take you down paths where regular tour buses are prohibited. As you drive through the countryside, you'll be entertained with stories on the area's history, folklore, and vibrant culture.

Your off-road adventure begins at Body Pond area, where you'll be charmed by the lush setting and learn about the plants that were used for health remedies. Body Pond area is in the center of the island and was once the main freshwater source. Historic Nelson's Dockyard National Park is not to be missed, and your off-road vehicle easily climbs to the peak, where the Shirley Heights and Blockhouse Ruins await. View the remains of the powder magazine, gun platforms, cisterns, and officer's barracks atop this sheer cliff. From this breezy vantage point, you can see all the way to Montserrat and Guadeloupe on clear days. Continue on to the Shirley Heights Lookout point, where picture-perfect views of Nelson's Dockyard National Park and the English Harbor can be seen. The lookout was once used as a signal station where different flags were flown to warn those in the dockyard of approaching ships.

A short scenic drive brings you down to Nelson's Dockyard, the only Georgian naval dock in the world and a unique Antiguan landmark. Although this is the Caribbean's premier example of a British naval yard, it was actually constructed by Antiguans. Nestled in the cone of a dormant volcano, the dockyard has been well protected for over 500 years from the hurricanes that frequent the area. Tour the dockyard and its restored buildings and museum with your knowledgeable guide.

Your knowledgeable guide will give you background information on the island's natural foliage. Skirt the shore and drive past mangrove thickets as your guide explains the ecological role this ever present Caribbean tree plays in the saltwater environment.

The turquoise waters of Turner's Beach beckon you to run along the shore, play in the sand, and take a dip in the warm sea. **Nelson's Dockyard, Shirley Heights & Dow's Hill****ANU-100 Approximately 3.5 hours / From \$65**

Board your air-conditioned transportation and drive through the heart of Antigua en route to Dow's Hill Interpretation Centre. Along the way you'll pass quaint villages, the ruins of the area's famed windmills, old churches, and the brightly colored chattel houses, which epitomize the area's West Indian culture.

Antigua (an-tee-gah) was named by Christopher Columbus on his second voyage to the new world. In this primarily rural environment, don't be surprised if you see a donkey roaming the streets while you tour. Antigua's first successful sugar plantation was established in 1674 and sugar was the country's primary source of income until tourism took over in the 20th century. Of course the area's beaches are spectacular and Antiguan's like to boast that they have 365 glorious beaches, one for every day of the year.

As you approach the Dow's Hill Interpretation Centre, you'll notice that the architecture takes on a more modern appearance. Originally an 18th-century residence for the General Officer Commanding of the British Navy, this cultural center of the island has been newly redesigned. Although the construction is modern, you can still sense the history in the building because the original stonework was used during the restoration. The star attraction is a state-of-the-art multimedia exhibition that celebrates the history of the Island. Throughout the presentation you'll move through a timeline of the island and meet prominent figures from both the past and present that have influenced Antigua's growth and development. Step outside with your guide and explore the historic ruins of what was originally a fort constructed by the British government. Panoramic views from the observation deck make for wonderful photographs.

The views continue when you reach Block House and Shirley Heights Lookout. From this area, picture-perfect views of Nelson's Dockyard National Park and the English Harbor can be seen. The lookout was once used as a signal station and different flags were flown to warn those in the dockyard of approaching ships.

Coral World, Sea Lion Swim & Scenic Drive

STT-725 Approximately 3.5 hours / From \$149

Your tour begins as you board your open-air safari bus for a scenic drive to Coral World Ocean Park, one of the top attractions in St. Thomas. Upon arrival, you'll be escorted to the Undersea Observatory Tower, the only one of its kind in the Caribbean, standing 100 feet offshore. After a briefing about sea lions, you'll descend into an enclosure for the opportunity to interact with these intelligent yet comical creatures. You'll touch, pet and play games with the sea lions as they demonstrate their remarkable agility. You'll practice the hand signals used by the trainers, and at the end of the encounter, your playful hosts give a hug, a kiss and pose for photos. Although personal cameras aren't permitted during the sea lion swim, Coral World photographers take pictures in and out of the water, with a CD available for purchase.

After your underwater adventure, you're free to explore Coki Beach and Coral World Marine Park. Coral World boasts one of the world's largest coral reef tanks and a giant circular aquarium with more than 20 viewing stations. Here, you'll visit the mangrove lagoon, the turtle pool and the open-air shark tank called Shark Shallows. At the touch pools, you'll get your hands wet while you gently handle starfish, pet a sea cucumber and meet a hermit crab among other touchable sea creatures. Your tour concludes with a scenic drive back to the pier. Should you choose, you can be dropped off downtown to shop. Passengers remaining in town are responsible for returning to the ship on their own.

Special Interests

Caribbean Magic Ice Bar, Gallery & Shopping
STT-225 Approximately 3 hours / From \$49

It may be difficult to imagine St. Thomas as a winter wonderland. After all, it's famous for its warm Caribbean breezes, beautiful sun drenched beaches, and sultry days with temperatures that range from 73°F to 89°F. But if you want to take a cool adventure that's out of the ordinary then look no further than the intensely lit and meticulously carved Ice gallery.

The three hour excursion begins when you travel to the historic district in downtown Charlotte Amalie aboard your open-air bus. Before you enter the sub-zero, 10,000 square-foot facility you'll be given parkas and gloves. Once inside, you'll marvel at the walls made of ice and the intricate sculptures created by more than a dozen artists from different parts of the world out of several tons of Arctic ice shipped from the northern part of Norway. Some of the fascinating creations you'll see during your tour include sharks, iguanas, Santa and his reindeers, life-size sculptures of people including Queen Charlotte Amalie and King Frederick, and many pirates. One of the most mesmerizing parts of Magic Ice is the large display that's focused on the Caribbean's rich history. Here, you'll get a glimpse into the "Golden Age of Piracy" complete with a bar that's shaped to resemble a pirate's sunken ship. If you're 18 or older, you're invited to step up to the bar for a free shot of rum served in a frosted glass, yours to keep as a souvenir.

At the conclusion of your Magic Ice tour, you're free to walk amongst the main shopping district of the island, Main Street, where there are many stores such as Coach, and a variety of restaurants for you to explore.

Along the way, you'll walk past many of the city's most memorable and popular landmarks. One of the sites you'll see includes Fort Christian. Built in 1676 to defend the island's Danish settlements, the fort would later serve as a governor's residence, church, community center, police station, court and jail. Today, Fort Christian is a National Historic Landmark and home to the Virgin Islands History Museum. Continuing on you will find Emancipation Garden, which commemorates the July 3, 1848 emancipation of the country's slaves, and Blackbeard's Castle, a five story tower built in 1678, which was used as a watchtower overlooking the harbor.

At the end of your shopping and sightseeing excursion you have the option of returning to Magic Ice for the shuttle back to your ship or staying longer and returning to the ship on your own.

Activities & Adventures

Dune Buggy Heritage Adventure Tour

RSD-555 Approximately 2 hours / From \$185

One of the great get away experience from Princess private island is to get on the beaten track for a two-hour dune buggy safari. Comfortable clothing, sun protection and secure flat shoes are recommended to make this adventure even more memorable. Don't forget your camera because you'll surely want to capture each unforgettable moment.

After an informative safety briefing, you'll don your helmet and follow your guide to the southern part of the island. Along the way, your guide will point out areas of interest, as well as the island's exotic flora and fauna and you'll learn how European settlers, known as the Eleutheran Adventurers, arrived in 1648 from Bermuda seeking religious freedom.

As you explore the unspoiled beauty of south Eleuthera, which will take your breath away, you'll traverse a landscape of low, rounded limestone hills, sometimes rising up 100 feet, set against a backdrop of turquoise water and sapphire blue sky. Keep your camera handy as you may see any one of the 223 species of birds that call this island home, many travel from far, during the winter to escape the wrath of the deep cold.

Continuing south, you'll head towards the historic (and some say, haunted) Bannerman Town, named for Sir Alexander Bannerman, governor of the Bahamas during the 1850s. Agriculture was once a mainstay on the island and during the early 18th century, slaves were brought in and sold here. Among the ruins is an auction house that stands as a silent reminder of the somber chapter in the island's history.

The southernmost tip of the island is home to Lighthouse Beach. This out-of-the-way world known gem boasts an unexpected treat of beautiful pink sand. The Atlantic and Caribbean waters converge here, which crushes microscopic sea creatures called foraminifera. Their bright pink shells are pulverized and washed ashore resulting in a shimmering blush color. Once you arrive you can climb out of your buggy for excellent photo shots, get to feel the clean, powdery pink sand between your toes and absorb the picturesque views from the top of the historic old lighthouse.

Back on the road, you'll follow your guide to the ruins of the Anglican Church of the Assumption which was built by slaves in the 18th century, additional old ruins of houses, marks what used to be the quaint site of Bannerman Town at that time.

The final stop of your off-road adventure is the Princess Cays® Wishing Well. Here, you'll get a chance to drop in a coin and make a wish perhaps it's to come back and spend a longer time discovering more of the hidden treasures of Eleuthera. Then, with the incredible imagery and unforgettable history from this wonderful road trip in mind, you'll enjoy an idyllic ride back to Princess Cays.

Water Noodle Rental

RSD-956 Approximately 6 hours / From \$5

A noodle is a long, foam object that is used for play and exercise in a body of water. It is buoyant and comes in many different colors. The noodle is a popular exercise device for those who do not work out with free weights.

Uses for the Noodle:

- 1) Triceps pull-down - Stand where the water comes up to your navel. Holding the noodle in front of you with both hands, push it downward into the water. Relax your arms and let the noodle float back up to the surface (keeping your grasp lightly on the noodle). A few times will target your triceps, and you will exercise your upper body.
- 2) "Surfing" - This is an exercise that requires you to go to deeper water. Using the noodle as a flotation device, pull your feet up onto it and then straighten your legs. Keep the noodle below your feet as you tread water with your arms. This is probably the most intense workout a noodle will provide, because it requires both concentration and strength. If you're feeling extra-limber, bend your knees up and extend your legs back down, keeping the noodle below your feet.
- 3) Sit on the Noodle - For this exercise, you can practice either in the shallow or deeper water. Either way, your feet should not touch the bottom. Put the noodle at the back of your thighs under the water, then sit on the noodle. Tread water with your arms to help keep yourself afloat. This is a less strenuous version of the "surfing" exercise but will help increase your overall balance and will burn calories if you can practice this exercise at least 10 minutes at a time.

Leon Levy Native Plant Preserve & Scenic Island Tour**RSD-360 Approximately 4.5 hours / From \$89**

Here's an active full-day learning activity designed to engage the mind and inspire the senses. Nature lovers will be in their element from the scenic drive from Princess Cays to explorations along well-marked trails in the Leon Levy Native Plant Preserve. With the opportunity to purchase snacks or lunch at the scenic Sunset Inn restaurant, this adventure is a great new option for spending your Princess Cays escape.

You'll depart from Princess Cays and complete the first leg of your scenic island tour of south and central Eleuthera. Arriving at the Leon Levy Native Plant Preserve, you'll have ample time for the complete Preserve Nature Trail tour.

"A Wall Street investment genius and prolific philanthropist," according to Forbes magazine, Leon Levy made a huge impact on the world. This 25-acre ecologically sustainable sanctuary was created jointly by the Bahamas National Trust and the Leon Levy Foundation in 2006, when Shelby White, Leon Levy's widow, approached the Bahamas National Trust about creating an appropriate memorial to her husband on Eleuthera.

Located in Governor's Harbor, The Preserve is a living part of Bahamian history. It is the first national park on the island and an environmental education center and a facility for the propagation of native plants and trees. Visitors can now walk miles of trails throughout the native habitat and view the beautiful orchids, the edible and medicinal plants, and the hardwood trees that played an important role in the development of the island. This amazing 25-acre preserve brims with many different species of palms, mangroves and ferns. Medicinal plants range from well-known species like aloe vera to more obscure plants which islanders have kept in their medicine kits for centuries.

Eleuthera is an island in the Bahamas 50 miles east of Nassau. It is 110 miles long and in places little more than 1 mile wide. The name "Eleuthera" is derived from the feminine form of a Greek adjective that means "free." The topography of the island varies from wide rolling pink sand beaches to large outcrops of ancient coral reefs. The eastern side of the island faces the Atlantic Ocean while the western side faces the Great Bahama Bank.

Continuing your scenic island tour, you'll enjoy the charm and diversity of the capital of Eleuthera, Governor's Harbor. Keep your camera handy for the tapestry of Victorian-era houses draped along narrow lanes and steep hills. Overlooking the harbor, the town is bordered on the south by a narrow peninsula and Cupid's Cay at the tip. There are gorgeous pink and white-sand beaches and views of fashionable Harbor Island. A stop at Sunset Inn restaurant for lunch or snacks on own tops off your time away from Princess Cays. Hopefully your day is an enjoyable one filled with lots of pictures and relaxation as you learn a bit about the island of Eleuthera.

Special Notes

Please wear light clothing, comfortable walking shoes to walk on the nature trails, and a hat. You may bring some bottled water, sunscreen, insect repellent and don't forget your camera! Please travel with cash for any food or souvenir purchases.

Frequently Asked Questions

Q. WHAT ARE THE ADVANTAGES OF TAKING ORGANIZED EXCURSIONS?

A. There are a number of advantages to taking organized tours offered by Princess, such as:

Quality: We have carefully inspected all of our ports and we offer you excursions from only the most reputable local tour operators

Variety: All our tours are designed both to feature the most popular and interesting attractions in each port and to satisfy the diverse needs and interests of our passengers.

Service: What could be easier than letting us arrange your tours for you? Either by having your tours organized onboard so you can best maximize your time in port and avoid having to make independent, last-minute arrangements, or by pre-reserving all your excursions at princess.com. Princess is at your service.

Safety: Your safety and security are of the utmost importance to us and they are the primary consideration in the development and operation of our tour programs.

Value: We endeavor to select local tour operators who provide excursions of the highest quality and we carefully monitor prices to ensure that you are receiving good value. Remember to book early to receive the best possible price.

Q. WHAT DOES PRINCESS DO TO ENSURE MY SAFETY WHILE I'M ASHORE?

A. Our primary concern at Princess is your safety and security. We are in continual contact with authorities concerning any travel advisories that might impact our cruises. If the U.S. State Department advises against travel to specific locations we visit, we would make the necessary changes to the published itinerary. Although such itinerary changes occur infrequently, please understand that these changes are for your own safety and security and are beyond our control.

Despite all of our efforts and in light of recent world events, we remind all of our passengers that they must ultimately assume responsibility for their actions while ashore. In this regard, we would like to remind you of some common sense precautions when visiting ports-of-call:

- Stay in the normal tourist areas and don't travel to out-of the way places without the benefit of a guided tour offered through Princess.
- Do not leave any of your belongings unattended in public areas.
- Be generally aware of people and activities around you.
- Do not accept packages from anyone you don't know personally.
- Keep a low profile - dress and behave conservatively.
- Be careful when eating and drinking ashore.

We thank you in advance for following these recommendations, which we believe will enhance the enjoyment of your cruise or cruisetour.

Q. WILL I MISS THE SHIP IF I GO ON A SHORE EXCURSION?

A. One very important feature of taking a shore excursion organized by Princess is that we closely monitor the departures and returns of all our tours. Therefore, our ships do not sail until all of our organized tour transportation has returned, so you can be assured that you won't miss the ship. Please keep in mind that when you make your own arrangements in port, or if you leave an organized tour, we will no longer be aware of your whereabouts; so be sure to schedule ample time to return to the ship before it sails.

Q. HOW DO I RESERVE MY SHORE EXCURSIONS IN ADVANCE OF MY CRUISE?

A. Visit our website at princess.com for the most up-to date shore excursion information, full tour descriptions and to request your shore excursions up until 5 days prior to your cruise. The Cruise Personalizer is the fastest and most convenient way to reserve your shore excursions. Please keep in mind that you will receive your tickets when you arrive onboard and all of your shore excursion purchases are charged to your shipboard account. Advance payment is not accepted. Since shore excursions have limited capacity, we encourage you to reserve your tours as early as possible to avoid disappointment and confirm the best price. Reservations are processed on a first-come, first-served basis.

You may change shore excursion requests, but be advised that shore excursion prices may change. Requests to add tickets at a later time can be made but these tickets may be at a higher price than those previously booked. If you request a shore excursion which you previously cancelled, these requests will be confirmed at the current shore excursion price, which may be higher.

Q. HOW DO I RESERVE MY LAND EXCURSIONS IN ADVANCE OF MY CRUISETOUR?

A. When you are ready to pre-reserve your land excursions, go to the Cruise Personalizer and have your booking number and credit card information ready to enter. A credit card must be registered for each passenger that wishes to participate on a land excursion and we accept Princess Visa, Visa, MasterCard, American Express, Discover and Diner's Club. Credit cards used to pre-reserve land excursions must be valid through the full length of your cruisetour and may also be used to establish your shipboard account. Although a credit card is required to reserve your excursion(s), guests are able to pre-reserve all of their land excursions with no deposit required. An auto-charge of all pre-reserved excursions will take place two days prior to your first Land Excursion booking. Confirmed pre-reserved excursions can be viewed at any time in your detailed itinerary in the Cruise Personalizer. The Cruise Personalizer will remain open until your cruisetour departure date so you may add or cancel tours prior to the cancellation deadline without penalty. Excursions cancelled once the auto-charge has been processed are subject to a 100% penalty. Note that excursion availability is based on cruisetour date, capacity limitations, and suitable weather conditions. Excursions are subject to change at any time and available on a first-come, first-serve basis. Guests are encouraged to book early as space is limited and flightseeing tours in particular may not be available for pre-reserving right up to tour departure date. Prior to travel, print your Travel Summary which will have a listing of all of your pre-reserved land excursions. You will also receive information on confirmed excursions in your Welcome Envelope upon arrival at each location.

Q. HOW CAN I BE SURE I AM CONFIRMED ON THE EXCURSIONS I WANT?

A. When you book your excursions online at princess.com, you receive an immediate confirmation of the status and price of your requested excursion. The site shows the remaining capacity on all tours, so you know if you are confirmed or waitlisted. To avoid disappointment and confirm the best price, please reserve your excursions as early as possible. If the specific tour time you requested is fully booked, Princess may schedule you on an alternate departure that corresponds with your other tour selections.

If your shore excursion choice is not available, we will put you on a waitlist and attempt to obtain more space on the shore excursion. If you have companions traveling with you in your stateroom or in other staterooms and would like everyone to be on the same shore excursion departure, order all the excursions under one name. Requests made individually, even if at the same time, may cause you to be booked on a different departure than your companions or waitlisted on an excursion for which your companions are confirmed.

Land Excursions can not be waitlisted but we actively request more space wherever possible from our tour operators; if a tour is sold out we encourage guests to revisit the Cruise Personalizer at a later date and they can also check for more availability at the tour desks in our Alaska ports.

Q. MAY I TAKE MORE THAN ONE TOUR IN A SINGLE PORT OF CALL?

A. Yes. In Alaska, Canada/New England, the Caribbean, Panama Canal, Hawaii and Mexico, allow at least 30 minutes between each tour. In all other regions, allow at least 60 minutes between each tour. All tours depart from, and return to, the cruise ship pier. By scheduling the appropriate amount of time between tours, you will have sufficient time to take multiple excursions.

Q. CAN I CANCEL AN SHORE EXCURSION I'VE REQUESTED?

A. Due to the limited capacity and high demand for helicopter flights and private vehicle options, these shore excursions are not refundable unless cancelled by 12:00pm on the day after embarkation.

For all other shore excursions, a "Closing Time for Bookings" for each port of call is listed on the Tour Order Form you will receive onboard in your stateroom. This is the time when the bookings for the tours in that port close and we notify the local operators of the final shore excursion requirements. You may cancel an excursion if it is prior to the closing time whether you reserved in advance or onboard. We cannot cancel a shore excursion if it is past this closing time, nor can we refund shore excursions on which you choose not to go. All shore excursions operate rain or shine unless cancelled by the tour operator.

Q. CAN I CANCEL A LAND EXCURSION I'VE REQUESTED?

A. Due to the exclusive nature and advanced planning required for excursions involving hotel accommodations, airline flights and some flightseeing tours, these excursions are not refundable within 30 days of sailing. A fee will be assessed onboard for any of these tours cancelled within 30 days of sailing.

Land Excursions, pre-reserved through the Cruise Personalizer, may be cancelled up to the Land Excursion cancellation deadline which is two days prior to your first land excursion booking. At the cancellation deadline, all pre-reserved land excursions will be auto-charged using the credit card that you provided in the Cruise Personalizer to reserve your tours. Excursions cancelled once the auto-charge has been processed are subject to a 100% penalty, unless the operator, at their sole discretion, is unable to operate the program due to unforeseen circumstances. All sales of tours booked while on your land tour are considered final at the time of purchase and are 100% non-refundable except in the case of an operator approved cancellation.

Q. CAN I REQUEST TO BE REFUNDED FOR MY LAND EXCURSION.

A. In the event of any excursion being cancelled for reasons beyond our control, a full refund will be made. Land

Excursions that were pre-reserved, charged and then cancelled due to weather or other operator approved cancellation will be refunded using the same credit card used to book your excursions. These refunds will typically be reflected on your credit card statement between 7-10 business days after cancellation. Tours booked while on your land tour are considered final at the time of purchase and are 100% non-refundable except in the case of a cancellation by the vendor. Should any excursion have to be abandoned through force majeure or difficulties en route, the best possible refund will be arranged according to the circumstances.

Q. HOW DOES THE PRINCESS EXCURSIONS PROGRAM OPERATE ONBOARD?

A. Our Shore Excursion Manager runs the onboard portion of the Princess Shore Excursions program. Tour Office staff are available to answer questions and make shore excursion reservations for you. Once onboard in your stateroom, you will find tickets for the shore excursions you reserved in advance. If you have not yet reserved tours or would like to purchase additional shore excursions, you will find a Tour Order Form in your stateroom. You will also find a schedule of daily activities, the Princess Patter, which features important program information including Tour Office hours and the closing time for shore excursion bookings. Remember, tickets are sold on a first-come, first-served basis and space on shore excursions is limited, so book early. A Tour Order Form drop box is located near the Tour Office where you may deposit your order form at any time.

Q. ARE THERE CHILDREN'S PRICES AVAILABLE?

A. Yes, on some tours for children age 12 and under. If you are traveling with children, please pre-reserve the number of child tickets you would like on the Cruise Personalizer. If the adult and child price is the same, please order all tickets as adult. Once onboard the ship or at one of our land excursion destinations, check your tour tickets to ensure you have received the correct number of adult and child tickets. Visit the Tour Office as soon as possible to make any necessary adjustments. Parents are also responsible for bringing a safety seat for their child.

On most helicopter and flightseeing tours, children 24 months of age and older are required to have their own seat. Children under 24 months are considered lap infants and may ride free of charge if the tour operator can accommodate them - with prior arrangement through the onboard Tour Office. Parents must show proof of age to the tour operator for any lap infant. Children under the age of 24 months are not able to participate on a helicopter tour.

Q. ARE PRIVATE SHORE EXCURSION OPTIONS AVAILABLE WHERE I CAN CUSTOMIZE MY TOUR?

A. Yes, in many ports we offer shore excursions that can be customized to your specifications. On these tours you are able to book exclusive use of the tour vehicle (automobile, boat or plane) and tailor the tour to include activities and venues you want to experience.

Due to the limited capacity and highly specialized nature of these excursions, they are not refundable unless cancelled by 12:00pm on the day after embarkation or prior to the booking closing time for the port which is listed on the onboard Tour Order Form (whichever is first). Once onboard the ship, you may be provided with a preference card to advise the tour operator of your selected itinerary and interests. The onboard Tour Staff will gladly assist you and provide recommendations.

Please note these shore excursions are sold per transport, not per person, so only one passenger should make the reservation for the entire group. This is a private arrangement and those accompanying you are the guests you choose; Princess does not match up individual passengers to form a private group for the vehicle. The price listed includes the means of transport and/or private guide and does not include gratuities, meals and attraction entrance fees (unless indicated otherwise) as these will vary based on your choices.

Q. ARE THERE AGE OR OTHER RESTRICTIONS ON TOURS?

A. For most tours, there is no minimum age for children as long as they are accompanied by a parent or guardian. Passengers under the age of 18 years cannot participate without a parent or guardian. Please review the tour description notes for the most current restrictions and any exceptions; a few operators may allow an unaccompanied minor on tour if a waiver is signed by the parent or guardian in the operator's presence. Any other restrictions imposed by the tour operator are listed in the "Special Notes" section of each tour description.

Q. IS A VISA REQUIRED FOR ANY OF THE PORTS I VISIT?

A. Please review the information detailed in the "Itinerary" section of the Cruise Personalizer regarding any applicable visas for your specific voyage.

Q. IS ANY ADDITIONAL DOCUMENTATION REQUIRED TO PARTICIPATE ON SHORE EXCURSIONS?

A. Passports, visas and other documentation may be required on certain shore excursions. Please review the "Special Notes" section of the shore excursion for full details. Notarized written consent is required for children crossing international borders without both parents.

Q. ARE THE EXCURSIONS GUIDED?

A. Yes. All of our excursions include local English-speaking guides except for On Your Own tours and where otherwise noted.

Q. SHOULD I TIP THE TOUR GUIDE?

A. Tipping is a discretionary matter; however, it is customary, if one is pleased with their tour, to tip the tour guide. A

general rule of thumb is \$2 per person for a half-day tour and \$5 per person for a full-day tour.

Q. WHAT TYPE OF CLOTHING SHOULD I WEAR WHILE ON TOUR OR IN PORT?

A. During your cruise, the climate can range from temperate and cool to hot and humid. Please plan to dress in layered, light- to medium-weight clothing and comfortable, low-heeled walking shoes. Since weather conditions may vary, we suggest you also pack a sweater, a light jacket and an all-weather coat. In addition, don't forget a hat or visor, a collapsible umbrella, sunglasses, sun screen and of course your camera and extra film and batteries. Please note that for water-related excursions where we suggest you wear your bathing suit, cover-up and hat, we have placed a symbol next to the shore excursion description.

If you plan to participate on an overland tour and will need to recharge video equipment or use a hair dryer, we suggest you bring an international adapter. Whenever you plan on going ashore, we highly encourage you to leave your valuables and jewelry onboard. While ashore, please take care in protecting your purses, cameras and other personal items. Minimizing personal belongings brought ashore could expedite the security process when reboarding the ship. We suggest you carry a photocopy of your passport when going ashore as you may need your passport number to exchange currency.

Please be mindful that in some of the countries you will visit, the local people may have somewhat more conservative views concerning dress than those to which you are accustomed. Generally shorts, tank tops, and short skirts are not acceptable dress when visiting churches or places of worship. Specific information regarding appropriate dress in these ports is provided with the shore excursion. For all golf tours, collared shirts and either long pants or Bermuda-style shorts are required (no cut-offs, bathing suits, etc.).

Q. WILL I MISS MEALS IF I GO ON SHORE EXCURSIONS?

A. Our wide variety of dining venues, including a 24-hour buffet, means there are always meal options available onboard that fit within the shore excursion timing you select.

Q. IS THERE TIME FOR SHOPPING ON THE EXCURSIONS?

A. Shopping is, for many, an important part of travel and, wherever possible, time for this activity is allowed within the framework of many of our shore excursions. Please note, however, that the actual amount of time available for shopping is generally limited.

Q. DO THE EXCURSIONS INCLUDE MUCH WALKING AND STAIR CLIMBING?

A. All of our excursions involve some walking and some excursions include more walking and stair climbing than others. Walking may be over uneven surfaces such as cobblestone city streets or the rocky pathways of ancient ruins. On many excursions, it is necessary to negotiate stairs. Please keep in mind that many of the buildings you will be visiting may have been constructed well before conveniences such as elevators were invented and have been preserved in their original state. Please refer to our tour symbols with each excursion description for more information and guidance.

Q. WHAT ELSE SHOULD I ANTICIPATE IN PORTS?

A. Keep in mind that some sites you will be visiting are extremely popular among both tourists and locals. Therefore, you may encounter crowded conditions, whether participating in one of our tours or sightseeing on your own. Regrettably, we have no control over this situation. With regard to photography, some venues may prohibit the use of flash cameras, so fast-speed film is recommended. In some places, photography or video may be prohibited altogether or a fee may be imposed. We ask that you observe any restrictions and, if in doubt, ask your guide for assistance.

Q. AM I REQUIRED TO WEAR SAFETY EQUIPMENT ON TOUR?

A. Yes, on certain tours it is mandatory that you wear the appropriate safety equipment in order to participate. Such equipment includes, but is not limited to snorkel vests, life vests, helmets, etc.

Q. WHAT IS REQUIRED TO PARTICIPATE IN A CERTIFIED DIVE TOUR?

A. An open-water scuba certification card must be presented in order to participate in a certified dive tour. Unfortunately, we are unable to accommodate divers with either a Junior Open Water or a Scuba Diver rating due to the depth limitations imposed by these certifications. The sport-diving industry recommends that divers take an update course if they have not been diving within the last six months. Please note that some dive operators may reserve the right to refuse to take divers who cannot provide proof of the date of their last dive or scuba review course. We recommend you bring a log book or proof that you have recently completed a review course.

There are certain medical conditions that may prevent your participation. Accordingly, you will be required to complete a medical-history form and liability waiver/release form that will be supplied onboard or by the tour operator. Following is a non-inclusive list of several medical conditions that may prevent you from safely participating in scuba diving. Any of these conditions would also require an examination prior to your cruise by a qualified physician to obtain written permission to participate in scuba diving activities. Heart disease or previous heart attack, diabetes, epilepsy or seizures, high blood pressure or the need to take medication to control blood pressure, pregnancy, asthma or any form of lung disease, recent surgery, blackouts, sinus problems, fear of closed spaces, recurring complicated migraines headaches, recurrent ear problems, severe motion sickness and presently taking prescription

medicines with the exception of birth control. Passengers are welcome to bring and use their own personal equipment, but it must be stored in their stateroom and there is no reduction in the tour price.

Q. ARE THERE ANY SPECIAL REQUIREMENTS FOR PARTICIPATING IN AN INTRODUCTORY/DISCOVER SCUBA DIVING TOUR?

A. Yes, there are certain medical conditions that may prevent your participation. Accordingly, you must complete a medical history form and liability waiver/release form that will be provided on board or by the tour operator at the beginning of the tour. Following is a non-inclusive list of several medical conditions that may prevent you from safely participating in scuba diving. Accordingly, you will be required to complete a medical-history form and liability waiver/release form that will be supplied onboard or by the tour operator. Following is a non-inclusive list of several medical conditions that may prevent you from safely participating in scuba diving. Any of these conditions would also require an examination prior to your cruise by a qualified physician to obtain written permission to participate in scuba diving activities. Heart disease or previous heart attack, diabetes, epilepsy or seizures, high blood pressure or take medicine to control blood pressure, presently taking prescription medicines with the exception of birth control, pregnancy, asthma or any form of lung disease, recent surgery, blackouts, sinus problems, fear of closed spaces, recurring complicated migraine headaches, recurrent ear problems, and severe motion sickness. For helmet or SNUBA tours there is a minimum age of 8 years and passengers must weigh at least 75 pounds. For underwater scooter tours there is a minimum age of 10.

Q. ON SPORTFISHING EXCURSIONS, DO I GET TO KEEP THE FISH I CATCH?

A. Most sportfishing tours offered by Princess are part of a catch-and-release program. Fish that are edible and not endangered are typically landed and kept by the boat crew. Please remember you have purchased an opportunity to catch fish, not a guarantee of doing so. As one of our boat captains said, "We guarantee fishing, not catching."

In Alaska only, if your tour is not designated as catch and release, your catch can be processed and shipped home for an additional charge as arranged by the tour operator. Because of its perishable nature and U.S. Customs regulations, your catch may not be sent outside of the United States in most cases. Due to federal regulations, your catch may not be stored onboard the ship, but may be prepared for dinner onboard. Fish caught while at our lodges in Alaska, needs to be shipped home if not part of a catch-and-release program. In Alaska, fishing licenses are required and can be purchased on your boat for \$20 per person in cash (rates subject to change). Fishing for king salmon requires an additional \$10 retention tag (rates subject to change). Children under 16 do not need a license. Fish runs are dependent on spawning seasons, so during May and late-September fish stock may be more limited. Go to www.adfg.state.ak.us for more details on licensing requirements and fishing regulations in Alaska.

Q. WHAT SHOULD I KNOW BEFORE TAKING A HELICOPTER TOUR?

A. Due to weight and balance limitations, as well as passenger safety and comfort, the helicopter excursion companies have advised that passengers weighing 250 pounds or more (fully clothed) will be assessed a surcharge to reserve adequate space onboard the helicopter. The surcharge amount will be indicated in the "Special Notes" section of each tour.

Because of the limited capacity and high demand for helicopter tours, they are not refundable unless cancelled by 12:00pm on the day after embarkation. Children 24 months of age and older are required to have their own seat. Children under 24 months are considered lap infants and may ride free of charge if the tour operator can accommodate them - with prior arrangement through the onboard Tour Office. Parents must show proof of age to the tour operator for any lap infant.

Carry-on bags are not allowed and limited secure storage is provided at the heliport. Helicopters may carry up to six guests depending on combined group weight. The flight length is approximate and flight route may vary due to weather conditions. Helicopter tours may be cancelled on short notice due to weather or safety issues. Warm clothing and sunglasses are recommended on helicopter tours. Dressing in layers is practical and lets you adjust your attire to meet changing conditions.

For helicopter tours in Denali National Park, a surcharge is not charged for guest over 250lbs. The helicopter company will assign aircraft and seats based on weight and balance. While every consideration is made to keep traveling companions and/or families together, this is not always possible for safety reasons.

Q. DOES PRINCESS OWN THE TOUR COMPANIES IN THE PORTS?

A. No, all of the shore excursions are operated by local, independent companies not by Princess; Princess retains a

portion of the total sale. We selected only the most reputable companies available to provide your excursions. The companies providing your excursions are selected by Princess based on their excellent reputation for service and safety.

Q. WHAT DO YOU RECOMMEND FOR PHYSICALLY CHALLENGED PASSENGERS?

A. Our answer, of course, depends on the type and degree of the disability. The goal of Princess Cruises is to provide a safe comfortable cruise experience for all passengers. If you will be using a mobility device during your sailing we strongly recommend you travel with a person physically fit to assist with your needs both onboard and ashore.

If passengers are able to walk on their own, we recommend tours designated as requiring a moderate level of activity. The transport on some tours may be able to accommodate a collapsible wheelchair stored below the bus; scooters or motorized wheelchairs are often too large. If confined to a wheelchair, we would recommend reserving the excursions identified as wheelchair accessible (see Tour Symbols listed for each tour) or a private vehicle shore excursion. We also recommend that non-ambulatory passengers be accompanied by someone who is able to assist them throughout the duration of their day. Our Tour Staff can provide more information on touring options for non-ambulatory guests. Physically challenged passengers participating on a shore excursion must contact the Tour Office at least 48 hours prior to your excursion to ensure arrangements can be made to meet your particular needs.

Embarking and disembarking can be challenging for those with limited mobility. Many major ports of call provide easy access for wheelchairs and scooters. However due to various conditions: steepness of the gangway, weather, shoreside facilities and tidal and sea conditions, passengers using mobility devices may be required to transfer to a stair climber or be precluded from going ashore. Princess staff will make every effort to assist but are not allowed to individually physically lift more than 50 pounds (22 kg).

Some ports of call require the ship to anchor off shore. Passengers are then taken to shore by small boats or tenders. When tendering is required, passengers using mobility devices will not be transferred into or out of the tender, if lifting in excess of the above limitation is required. Many tender ports do not provide wheelchair access so even if the passenger can board the tender they may not be able to disembark ashore. Again the shoreside facilities, movement of the tender, weather and tidal conditions can also preclude tendering.

The decision to allow any passenger to board a tender or disembark the vessel will be made by the Captain on the basis of the safety and welfare of all involved and is final. If passengers are unable to tender or disembark because of circumstances outlined above there will be no refund or credit for missed ports. While Princess recognizes your disappointment the safety of both passengers and crew takes precedence.

For more information on the terms and conditions for Princess Shore Excursions, please refer to the Special Information section. Every effort will be made to accommodate all passengers on the tour of their choice but, tours are operated by independent local companies and not by Princess. The final determination to let any passenger participate is made by the tour operator and therefore if, in the judgment of the tour operator, the safety or comfort of any passenger is in question, guests may be denied participation. This evaluation may not be able to be determined until meeting directly with the local tour operator.

Special Information

CONDITIONS In selling tickets (including coupons or vouchers) or otherwise promoting or making arrangements for Excursions— whether for air, land or local water transportation; tours; sports or any other recreational activities; shore accommodations or meals or for any service, facility or activity other than onboard Princess' cruise ships – Princess acts only as agent for the independent tour operator supplying such excursions or services. Participation by a passenger in Excursions is conditioned upon such passenger's acceptance of the terms and conditions set forth in the Passage Contract contained in the Cruise Ticket, the Excursion Ticket and, depending on the activity, other documents which, among other things, expressly release Princess from any liability for such participation. Participation may also be subject to the independent tour operators' own terms and conditions.

EXCURSION TIMINGS Departure times for each tour will be listed on princess.com in the Cruise Personalizer. For Shore Excursions, they will also be listed on the Tour Order Form, which you will receive onboard. These have been published according to information from our Tour Operators, but are subject to change should the vessel's arrival time at any port be delayed, or the itinerary for any particular excursion be amended. Please note that the time shown will be the time the last tour vehicle leaves the pier or hotel. Passengers are requested to report to the specified departure location (either onboard ship or shoreside) at the designated time, as delay on your part can interfere with the pleasure of your fellow passengers.

EXCURSIONS WITH LIMITED PARTICIPATION Shore Excursions may be purchased in advance of your cruise departure or onboard ship on a first-come, first served basis. Many of our excursions have limited participation and reservation requests will be processed in the order received. When excursions are fully subscribed, additional requests will be placed on a waiting list in the order received. Land Excursions can not be waitlisted but we actively request more space wherever possible from our tour operators; if a tour is sold out we encourage guests to revisit the Cruise Personalizer at a later date and they can also check for more availability at the tour desks in our Alaska ports.

PERSONAL POSSESSIONS Coats, wraps, umbrellas, cameras, handbags, traveling bags and similar personal articles remain at all times through the tour under the passenger's custody and control. Be careful that you do not leave your possessions unattended at any time in the car or coach in which you are traveling.

PRICES The prices for Excursions are subject to change without notice; are per adult, per child or in some cases per vehicle. Prices are confirmed at the time of booking. All quotations made include conveyance according to the itinerary and, where applicable, meals, refreshments, guides and entrance fees, unless otherwise stated. Children, other than infants in arms, will be charged full fare unless noted otherwise.

SHOPPING Where possible, time for shopping has been allowed within the framework of some excursions. However, excursions are not primarily designed for shopping, and time allowed for this purpose may be limited.

REFUNDS No refunds can be made on any ticket, coupon or voucher unless notice of cancellation is given before the closing date indicated on the booking form for the excursions involved. The times when bookings will close will be published onboard. In the event of any excursion being canceled for reasons beyond our control, a full refund will be made. However, should any excursion have to be abandoned through force majeure or difficulties en route, the best possible refund will be arranged according to the circumstances. Land Excursions that were pre-reserved, charged and then cancelled due to weather or other operator approved cancellation will be refunded using the same credit card used to book your excursions. These refunds will typically be reflected on your credit card statement between 7-10 business days after cancellation. Tours booked while on your land tour are considered final at the time of purchase and are 100% non-refundable except in the case of a cancellation by the vendor.

TRANSPORTATION Passengers should appreciate that standards of transport vary considerably throughout the world. Air-conditioned coaches are not available in many areas, and in some, local buses are the best available. Cars or taxis are also used at some ports where coach or bus transportation is not available or limited. Passengers wishing to travel with friends should all leave the ship together, as this will help the Tour Staff to allocate them space in the same vehicle. For the comfort of all passengers, smoking is prohibited aboard all sightseeing vehicles.

WITHDRAWAL OF TOURS The Tour Operator reserves the right to withdraw any excursion through lack of demand and to make any alterations that they may deem advisable for the comfort of the passengers, bearing in mind the convenience and best interest of each group.

ECOLOGY & ENVIRONMENT. It is our policy to maintain a positive and proactive position in relation to the environment. We realize that there is much work to be done to achieve our company goals. To this end we are continually striving to increase awareness of any environmental issues that are likely to affect any of the excursions we offer. We work closely with our local agents to convey any environmental messages in our shore excursion programs and therefore ask you to support us in our efforts by respecting the cultures, customs and environmental issues of the various destinations we visit.
